

About us

At an international level, ANSOLE promotes research and educational activities in the areas of renewable energy and access to clean water in Africa. At a local level, ANSOLE supports art and culture.

ANSOLE is registered as an NGO at the Local Court of Jena under VR 231505.

UN recognises ANSOLE Energy Compact.

ANSOLE & BALEWARE

The main focus of ANSOLE and its counterpart BALEWARE (Bridging Africa, Latin America and Europe in Water and Renewable Energies Applications) is the development of human capital (capacity building) in the fields of renewable energies (RE) and water in Africa.

AMAH

With the AMAH project (contact point for people of African origin), ANSOLE e.V. aims to act as a bridge builder between Africans living here (in Jena and the surrounding area) and German society. The AMAH project has the following goals:

- Counselling and support with experiences of discrimination
- Anti-racist educational work
- Intercultural exchange and knowledge transfer
- Networking and cooperation with both migrant and German organisations

Funding:

Landesverwaltungsamt

MIGRANTh

It concerns biographies and life paths that enrich and shape our society. We also feature associations and companies that were established by people from different regions of the world and which today make an important economic or civic contribution. In this way, we give a face to migrants in Thuringia.
